

As you know they came Monday to start the Seal Coating and got rained out. So, they will be back on Wednesday August 31st to complete the south end of complex that was started on Monday. The North end of the complex will be completed next Wednesday September 7th. So, everyone that was to move their vehicles out on Monday will need to do so by early Wednesday morning as well and North end on next Wednesday morning. You will not be able to drive or park on the asphalt for 24 hours after your area has been completed. If you're not sure where to park your car, the lot behind Johnny Malloy's and Arby's has overflow parking spots and you can walk through the back gate to our complex. If you have any questions please contact Tim Korte at 330-391-5422.
